Battery Park Library Demo

We started off this month with a demo at our local library. Through this event, we educated many parents and kids about our robot and let the kids interact with our robot. It is definitely safe to say they had a lot of fun rolling balls to the robot and watching it shoot!

Mother's Day Flower Sale

In celebration of Mother's Day, we sold crochet flowers, handmade by members of the team. The flowers sold out within the first hour and were so popular among students that our volunteers had to make more to fulfill the demand. Since this event was so successful, we will host more sales in the future to raise funds for the team!

NYSci Demo

On May 25th, our team held a demo at the New York Hall of Science in Queens. We showed competition videos of Izzy while kids enjoyed interacting with her.

Alumni Benefit

On May 23rd, we participated in the Stuyvesant Alumni Benefit at the Tribeca Rooftop! At this annual gala, many Stuyvesant alumni and students came together to celebrate the history of our school and participate in fundraising events like auctions. There, our team held a robot demo with Izzi who handed an envelope with the name of this year's honoree to Principal Yu. The person who the Alumni Association honored this year was Arthur Blank, founder of Home Depot, for his support. We are happy that we had the opportunity to participate in this event !

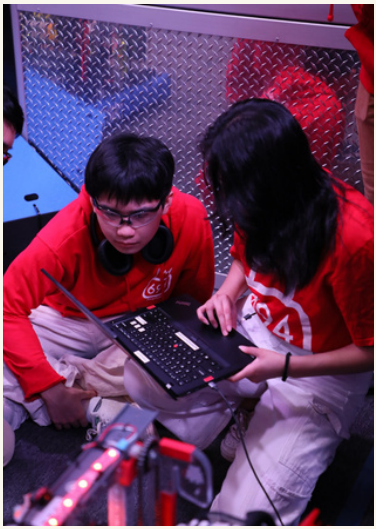

FLL Mentoring

We continued our FLL mentoring this month, through the Girls Scouts and Williamsburg groups where we engaged with kids in STEM and programming. StuyPulse is also excited to begin our new FLL summer program in Bensonhurst next month!

Offseason

Our members are extremely excited to enter the offseason as we continue our work on the off-season robot! Our mechanical engineers have been busy working on the CAD while our software engineers are working on improving the code from our onseason robot. Meanwhile, members of the business department are busy planning upcoming demos and presentations. The lab has been pretty busy lately and things are looking great for this offseason!

Battlecry @ WPI

We competed at our first offseason competition this year, Battlecry@WPI in Worcester, Massachusetts! We finished as the 14th seed and had a blast! We even won the Service Before Self award for helping other teams. We can't wait to dive into the upcoming offseason competitions.
