STUY POST

December 2023

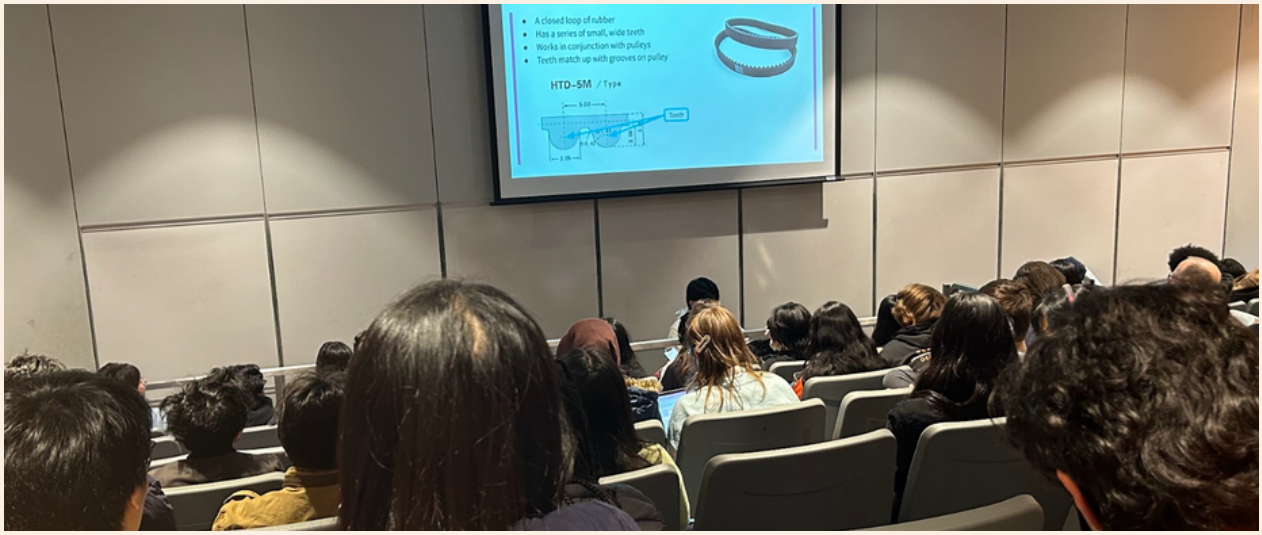

STUYSPLASH

On 12/16, we had many lecturers present on business, mechanical engineering, software engineering, and strategy.
It was an astounding success with live streaming for all presentations and 200+ participants. See you all at our next StuySplash!

STUYSPLASH

A closed loop of rubber
Has a series of small, wide teeth
Works in conjunction with pulleys
Teeth match up with grooves on pulley
HTD-5M / T5

Girl Scouts Mentoring

We visited the Girl Scouts for robotics mentoring every Tuesday in the month of December. We taught them how to use the engineering book that came with the FLL explore kit as well as how to build some basic structures. As part of this year's FLL prompt, we discussed their hobbies and taught the girls how to share and grow in them.

Upcoming Events

Mock kickoff 1/3/24 and 1/4/24

Kickoff 1/6/24 and 1/7/24

Special weekly build seaon newsletters! Stay tuned!

Happy Holidays and
Happy 2024! We hope
to accomplish even
more next year!
