November 2018 Newsletter

FLL Clinic

StuyPulse hosted an FLL Clinic, where we welcome all FLL teams to come test their robots and programs. Our members were also there, helping any teams that had any issues with their robots and code. We also helped teams brainstorm ideas for their research projects.

Newbie Ed Competition

Our engineering newbies had their first stop build day, for our newbie competition. Our newbie members were put in alliances of two teams. Then competed against each other in a tournament style competition. While our marketing newbies took photos and videos of the event.

Brunswick Eruption

Our team attended Brunswick Eruption on November 11th. We competed with both Wildcard and Mildcard. Both of our robots made it past the qualification matches. Mildcard was the alliance captain for Alliance 6. We picked Team 533, The PSIcotics, and Team 219, Team Impact.

While Wildcard was the alliance captain for Alliance 7. For this alliance we chose Team 341, Miss Daisy, and Team 222, Tigertron. We tried our best to see both of our robots during semi-finals, but only one of our alliances could make it to finals. Wildcard ended up in 2nd place, as finalists, at our last competition of 2018!
