Indiana

Even though summer break had just started, our Pulsites were still going to school, getting ready to head out to Indiana.

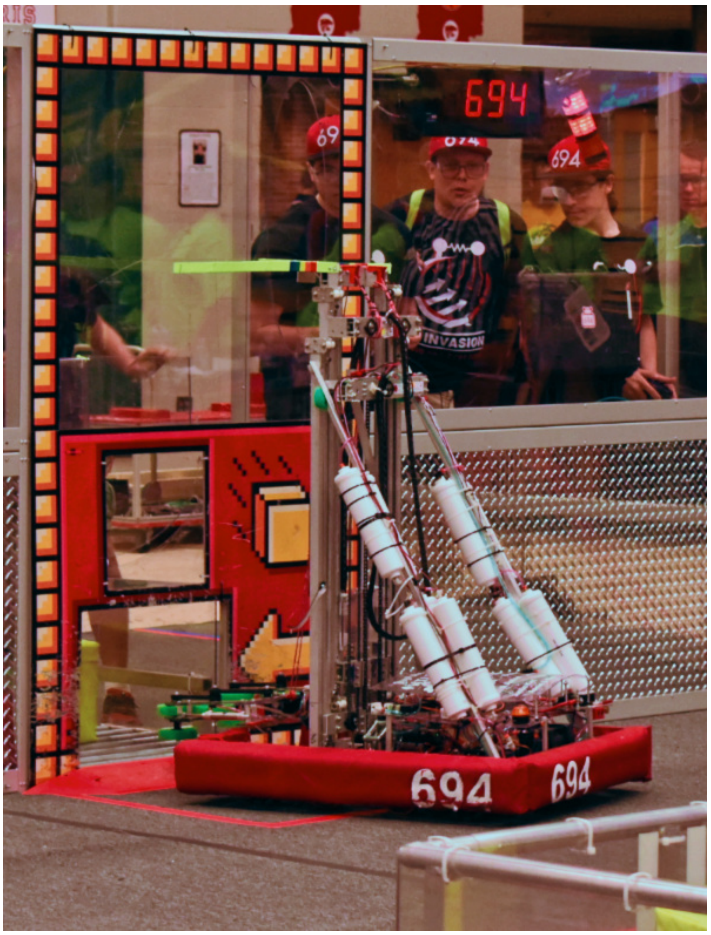

Sightseeing in Indiana

During our trip to IRI, we were able to visit the Rolls-Royce Heritage Trust Allison Branch. In the exhibition our members had the opportunity to observe their collection of aircraft engines made by Rolls-Royce and USA predecessor Allison Engine Company. Our members also went to the Indiana State Museum where we got to check out the various exhibits that they had to offer. We had a fun time exploring Indiana.

Indiana Robotics Invitational

IRI is an annual event, hosted by teams 234, 45, and 1024, where some of the best teams are invited to compete. It can be compared to the All-Star Games of FRC. At the end of the first day we were ranked 3rd. Unfortunately we had some technical issues, which we overcame, but ended up ranking 15th, with six wins and three losses. Although we didn't make it past qualifications, we had a great time playing during the competition and talking to the other teams there. We hope that we can go to IRI next season as well!

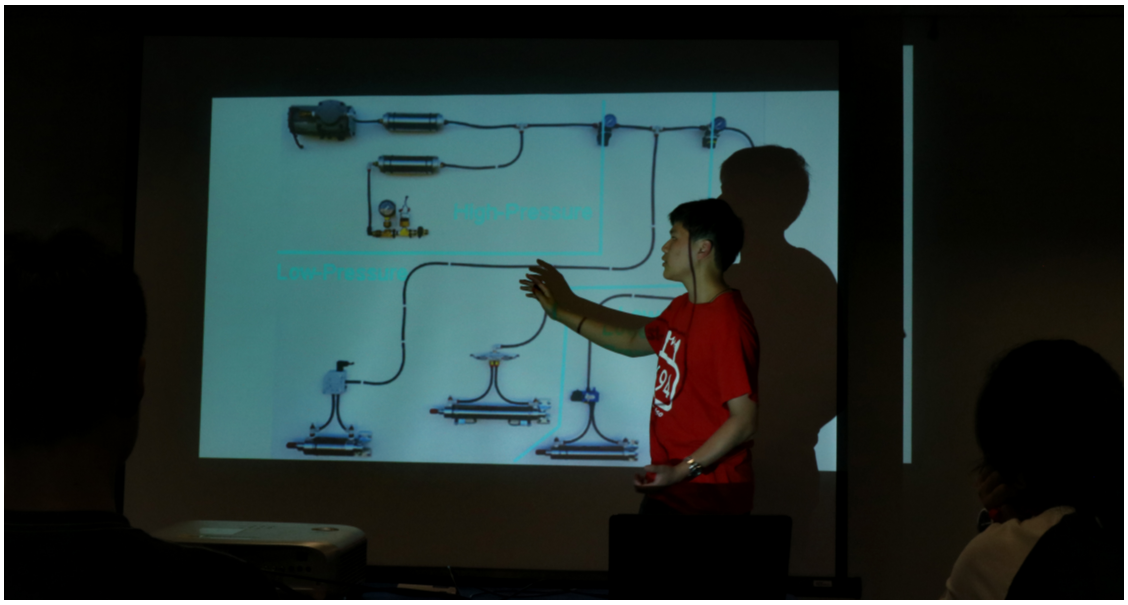

China

Our team was invited to China for the 5th year in a row. We were excited to compete in the Robotics Championship China & Qianjiang International Robotics Invitational. We were also looking forward to helping out rookie teams, and making some new friends along the way.

Mentoring Rookie Teams

During our time in China we mentored teams 9108, Hammer and Sickle, and 9084, The B.O.A.T.. We also gave presentations on various topics to help teach them how to build an efficient and successful robot.

Sightseeing in China

While we were in China we explored Shanghai, where we visited the Yu Garden, a garden that was built in 1559, and The Bund, a waterfront area in central Shanghai. It is always exciting to see what China has to offer and we hope that we can continue to return for years to come.

Robotics Championship China &
Qianjiang International Robotics Invitational

We had an amazing time during the competition. StuyPulse went undefeated, having 17 wins and 0 losses, and won the competition, along with our alliance partners Team 1506, Metal Muscle, and Team 5522, Star Gazer. We want to thank FIRST in China for hosting this wonderful event and hope that we come back next year!
