New York Tech Valley Regional

This past month our team competed at the 2019 New York Tech Valley Regional. StuyPulse was the Alliance Captain of Alliance 2, and made it all the way to Finals, along with FRC Team 1493 and FRC Team 7030. We ended up as the Regional Finalists, but have earned a Wildcard, qualifying us for the World Championship in Detroit, MI. Our team has also won the Entrepreneurship Award, and our mentor, Shelley Grant, has won the Woodie Flowers Finalist Award.

Central New York Regional

Our team has also competed at the 2019 Central New York Regional. StuyPulse has ranked 2nd and became the Alliance Captain of Alliance 2. Once again, our team made it to finals, along with FRC Team 2607, The Fighting RoboVikings, and FRC Team 5585, Blood, Sweat & Gears. We were the Regional Finalists and won the Creativity Award because of our majestical suction cup mechanism.

Afterschool Program Demo

Last week some of our members went to show off our robot from last year, Wildcard, at an after school program. Kids from the ages 5 to 10 at the Two Bridges Neighborhood Afterschool Program got to see our robot in action. Here are some adorable letters that they sent us afterwards:
