November 2019

Brunswick Eruption

Our team attended Brunswick Eruption on November 9th, 2019. Alfred performed well during qualification matches; as a result, we became the alliance captain for Alliance 2. We chose Team 747, Flight Crew, and Team 5895, Peddie Robotics, on our alliance. We made our way through the quarter and semi finals with Alfred and reached the finals. Alfred ended up in 2nd place, closing the 2019 season with the last off-season event!

Coat Drive

Our team along with Red Cross raised awareness for our annual Coat Drive. Until November 27th, all coats received will be donated to the New York Cares coat drive by courtesy of Bloomberg. We have started collecting a multitude of coats for this cause. Last year, our combined efforts along with the New York Cares coat drive delivered a total of 100,000 coats to those in need.

FIRST LEGO LEAGUE

CITY SHAPER

FIRST Lego League Mentoring

Over the past couple of weeks, our team has got in contact with a couple of different FLL Teams from Puerto Rico. We were excited to see some of our old friends, as well as meet new faces. During our video calls we have been helping them with their various projects.
